

Planning THE PERFECT PICNIC

1. *Basket or Cooler?*

Picnic baskets are great for that classic picnic look and can help tote non-perishable food and dinnerware. But, for chilled food, a cooler or two is the way to go!

TIP

Larger ice packs and blocks of ice stay frozen longer to keep salads, veggies, dips, and drinks cool.

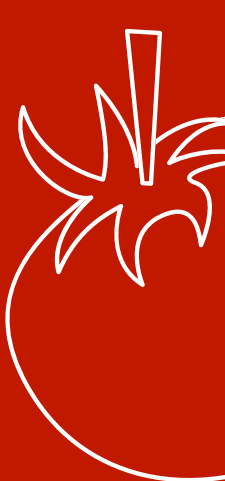

2. *Keep Your Cool*

Consider packing food that can be served chilled or at room temperature to avoid having to manage keeping some foods hot and others cold! Try out some of our suggestions below for salads, snacks, and dessert!

3. *Set the "Table"*

Pick a picnic spot located in the shade to keep you and the food cool. Also, bring multiple picnic blankets or tablecloths- one for eating and one for laying out food!

TIP

If your picnic group is small, consider bringing reusable dinnerware, but if you have a large group, disposable may be better- just don't forget trashbags!
